Panel 1: Hourly grid demand and solar generation
EXAMPLE DATA ONLY - illustrative day, not campus measurements
Grid demand (example)
Solar generation (example)
Example peak: 300 kW
Power (kW)
Hour of example day
Panel 2: Charging session costs by user type
Net billable amount (MYR)
Student
Staff
Visitor
User type
Panel 3: Battery temperature and energy delivered
Overall linear trend
Energy delivered (kWh)
Battery temperature (°C)
